VERTICAL CRISP 'N HOLD® HOLDING CABINETS

Since 1947, Foodservice Equipment That Delivers!

SUPERIOR FRIED & CRISPY FOOD

HOLDING... Active air circulation through the food cools product quickly to best food holding temperature, reducing moisture loss and stopping the cooking process. Excess moisture and oils are wicked away from the product and it remains crispy for an extended time. Beats heat lamp holding hands down; two to four times the holding time AND a better product.

ALL STAINLESS STEEL CABINET... For durability and easy cleaning.

EASY ACCESS... Pans fit in sliding racks for with drawer action to pull pans out of cabinet.

REMOVABLE INTERIOR PAN CADDY... Because the caddy is removable, the cabinet and the caddy are easy to clean.

PRECISION ENGINEERED AIR FLOW... Dual fans with integral air flow venting and plenum air guides for optimal food holding environment.

VERTICAL CRISP 'N HOLD BENEFITS...

- Extend holding time while maintaining quality, consistency and freshness of food
- Increase efficiency and improve speed and quality of service
- Reduce food waste and ensure constant availability of product
- Lower training costs, simplify staff training and supervision

VCNH2W3S shown with **optional** stacking package with CNH18XD counter-top unit.
